

FYROM will restore the Serbian graves. This act proves explicit that Macedonia is not independent country, but Belgrade's Colony.

## The Macedonian Politicians proved again to be Serbian Colony

Prof. Dr. Bozhidar Dimitrov

click on the flag for Bulgarian language

**Focus: Prof. Dimitrov how you will comment the news the Macedonian State will pay for the restoration of the Serbian military memorial in**

**Kaymakalan?**

**Bozhidar Dimitrov: My comment is that this act of the politicians in Skopje prove explicit that Macedonia is Belgrade's Colony. The international law require from every country to take care of his own memorial by itself. The country on which territories they lie have to give approval and to allow it. Giving funds in the current economic situation is unacceptable and prove without any doubt, Macedonia act as a dependent from Belgrade territories. As a complete contrast present the Macedonian officials towards our demand since 10 years to restore Bulgarian graves. They remain silent and we are waiting for permission. According to the international law and the Macedonian law from 1996 we should be able to do so. For our disappointment we still are not allowed to do restore with our funds not from the Macedonian state. It is very clear why they don't allow us. Because Macedonia and current politicians in power see each other as a territories totally dependent on Serbia's will. It is more shocking, that not in Serbian but in Bulgarian military graves remains are the ancestors of the current Macedonian politicians in Macedonia. 20% of the Bulgarian army in Macedonia in the World War I and Balkan wars was from Macedonia, which at that time was Bulgarian. They first destroy the graves of their grandfathers, which was falling in battle for national unity. 120 000 Macedonian was in Bulgarian army and more than 20 000 were falling in Macedonia - they were Bulgarians from Macedonia at that**

**time. And now they are not allowed to be restore graves and monuments of their grandfathers.**

**Focus: In Kaymakcalan there where not only Serbian but Bulgarian graves and monuments?**

**Dimitrov: In Kaymakcalan where fighting 2 Serbian and 2 French division and 3 Bulgarian, which gave also heavy victims of war. The Bulgarian graves where destroyed from the Yugoslavian Communist Officials. There are a lot, but it is not allowed to us to restore them.**

**Focus: Why it is not allowed?**

**Dimitrov: Because as I told you Macedonian is not a nationality but profession, and in this particular case means renegade in service for Belgrade.**

**Focus: What need to do the Bulgarian government?**

**Dimitrov: The Bulgarian government have to stop any help for Macedonia and furthermore to ask NATO and EU to discontinue any negotiation's with Macedonia as long this barbarian and anti- European politics towards Bulgaria continues.**

**Focus: How do you comment the the Protest of the Union of the Macedonian in Albania to the Albanian Assembly with regard of the demand of the secretary of the Bulgarian Assembly Ognian Gerdgikov of recognition of the Bulgarian minority in Albania?**

**Dimitrov: Above all I can describe this protest as a joke and laughing matter. This people obviously lives in other times, where belonging to a nation was decided from the Communist party, President or Prime Minister. The question of the national identity is strong personal and on this people from Golo Bardo, Mala Prespa or Gorna nobody can take the right to declare what they think to be - not even Macedonian Government or Albanian Government. They will remain Bulgarian independent if somebody will recognize that they are Bulgarian or not. This are remains from totalitarian times in Macedonia and Albania and nothing more.**

**Focus: In the statement they claimed by the last demographic count they declare themselves as a Macedonians and EU have question with regard of this count.**

**Dimitrov: I know at least 100 people Bulgarian in Albania, this means in Albania there are Bulgarian population. And we know how in the past west of Bulgaria on the Balkan our neighbor count. When there are people who claim to be Bulgarian it is obvious that this Bulgarian minority needs to be recognized.**

**Focus: Why the Macedonisten are better organized and speak louder?**

**Dimitrov: Because by them this is State Politics and the state give enough funds. And we in Bulgaria do not have clear politics with regard of Macedonia and Albania and also other minority in the world. We have Agency for Bulgarian abroad but, but they are not enough funded and do not have program. In Macedonia they spend a lot. It was state department before now is Agency and they solid funding to look for minority's. And where aren't any they pay to make it. Look OMO "Ilinden" in Bulgaria.**

**Focus: Why till now there was no state politics in this matter?**

**Dimitrov: I was not in by the politicians before and can't answer this question. Ask Jan Videnov, Ivan Kostov but also today's politicians why they don't do nothing? I think this what Ognian Gerjиков said is very good, but I don't know if this is a new program or state politic.**

**Focus: Do you think there will be new state politics in this matter?**

**Dimitrov: I develop such a program and state politics for BSP.**

**Focus: Do you expect to have people with interest to restore their Bulgarian citizenship?**

**Dimitrov: There were 20 000 request from the beginning of 2004 till today.**

**Focus: From which country?**

**Dimitrov: From Macedonia in first place and from Moldova on the second and from Albania on the third place. Despite of the fact, that some people do not want to recognize there are Bulgarian minority in Albania.**

**Focus: Are there other issue of this program too?**

**Dimitrov: The agency of Bulgarian abroad need to develop in State department. In the monument there are 1 Million Bulgarians for economic**

**reason abroad and 4 Millions by the historical development remain outside of Bulgaria. This is a big reserve for the nation. And we have to take care for our citizen abroad.**

**Focus: Will the state funding this programs?**

**Dimitrov: The state have to spend considerable amount of money.**

**Focus: How do you come to the idea to publish your new book in Macedonian: "The ten lies of the Macedonism"?**

**Dimitrov: The book is bestseller in Macedonia. More than 30 000 copies were sold. I understand the tragically reality that people are coping the book. Even in the village of Vlado Mokrov he saw people are writing the book by the hand, like in the Otez Paisii time. One wonderful appreciation gave Blaje Ristevski, who mentions that this book is the most dangerous for Macedonism.**

**Focus: Do you target the young population of Macedonia with your books?**

**Dimitrov: I am from Sozopol and in the summer young people come to Black sea and they often question me on different topics. Most important was my meeting with two young people 13 years old from Strumica in Sozopol. I ask them if they know the names of two Bulgarians from Strumica. They told me that they are best friend of their father. I ask them is your father Bulgarofil. They answer our father is not Bulgarofil, he is Bulgarian.**

**Focus: But you print the book in Macedonian. Do you recognize the language this way?**

**Dimitrov: Not at all. If we have to clarify many things we have to write in Macedonian language for better understanding.**

**And I recognize Macedonian language as a written norm of the Bulgarian Vardar dialect.**
